### EXPERTISE

---

## Public Law

Tina is leader of the Five Paper Public Law sub-team.

Tina is sought after for homelessness appeals and housing judicial reviews. She has long-standing relationships with many local authorities.

Tina is regularly instructed on homelessness matters in the County and Administrative Courts. She is able to assist with homelessness appeals and judicial review proceedings (including urgent applications for interim relief).

She also has good knowledge of housing allocations law. Tina is often brought into potential litigation at an early stage: to advise on the merits of allocations challenges or to assist in the drafting of responses to pre-action protocol letters of claim. For those cases which are not dispatched pre-action, Tina has experience in the Administrative Court and is able to guide clients as needed. She is available to draft grounds of resistance and to represent at preliminary and substantive hearings.

Tina regularly advises on policy matters; most recently she has assisted authorities on the effect of the Covid-19 pandemic on accommodation duties (the "everyone in" initiative).

Tina's notable public law cases include:

### **R (Kuznetsov) v Camden LBC [2019] EWHC 3910 (Admin)**

Tina represented the authority and successfully defended a costs order made against Camden in relation to an allocations judicial review. Mostyn J held that the authority were entitled to their in-house solicitor's costs at hourly rate of an independent solicitor in private practice (£317ph), notwithstanding that a FOI request revealed that the actual maximum hourly pay of a lawyer working for the authority was a fraction of such sum (£41ph).

The court also considered the principles to be applied when considering an application to set aside or vary or stay an order made pursuant to rule 3.3(4). The judgment may be found [here](#).

### **Kannan v Newham LBC [2019] EWCA Civ 57**

Tina represented the London Borough of Newham in the Court of Appeal (and also in the County Court) in relation to their decision that accommodation provided under the main homelessness duty was suitable. The Court of Appeal considered the extent to which the authority was required to consider the actual and likely future duration of such accommodation. The case has proved to be an important addition to the jurisprudence on the public sector equality duty in homelessness cases. The judgment can be found [here](#).

### **Harris v Hounslow LBC [2017] EWCA Civ 1476**

Tina successfully represented the authority in this appeal on statutory review requirements and public law defences to claims brought on the absolute ground for possession. A digest of the case can be read [here](#). The full text of the judgment can be found [here](#).

### **Ahern v Southern Housing Group [2017] EWCA Civ 1934**

Tina represented Mr Ahern in this lengthy county court litigation and as junior on appeal. The appeal addressed the nature of public law defences to possession claims. Click [here](#) for the judgment.

## Social Housing

Tina has spent her (almost) 20-year career at the bar working in housing law. She has deep knowledge of all areas.

She is regularly instructed on claims for possession and is able to assist with drafting, providing advice and representing clients at court. Tina has broad experience in cases relating to anti-social behaviour, rent arrears, subletting or succession. She is available for more complicated litigation concerning the status of an occupant or where public law issues are raised.

Tina also is available to assist with anti-social behaviour litigation whether that be for an injunction, committal

or closure order. She provides clear commercial advice on the best option for her clients and is able to put the most vulnerable client or witness at ease.

A significant part of Tina's work concerns breaches of repairing covenant. She can provide advice on the merits of a case, the likely quantum and, in appropriate case, settlement. She also has experience in enforcement litigation where earlier proceedings have been unsuccessful.

Tina has recently assisted local authorities obtain banning orders against landlords in the cases of **Welwyn Hatfield BC v Bucha & Captain Solutions Limited** (CAM/26UL/HBA/2021/0002) and London Borough of **Redbridge v Mr Mindaugas Cikanavicius** (LON/00BC/HBA/2020/0007 V:CVP). This is a relatively new avenue for many authorities and, where necessary, Tina is available to assist in preparing the application.

Tina can also assist on all housing management issues, including advising on and drafting policies.

Tina's notable social housing law cases include:

## Landlord and Tenant

Tina accepts instructions on a wide-range of issues concerning leasehold properties, including possession/forfeiture, dilapidations, breach and service charges. She is able to assist, whether the case be in the High/County Court or the First-tier Property Tribunal.

She has significant experience in breach of repairing covenant litigation. She can provide advice on the merits of a case, the likely quantum and, in appropriate case, settlement. She is increasingly involved in cases involving fire safety issues.

Tina is regularly instructed to act for social housing landlords in relation to service charge disputes – including group applications.

Her recent cases include **Notting Hill Genesis v Various Tenants of Endeavour & Mayflower Houses**. The case concerns a large group application for determination of liability to pay and reasonableness of service charges. The central issue is liability to pay freeholder charges. The matter was appealed to the Upper Tribunal and a decision is pending.
